As part of this process, some bags are opened and physically inspected. Your bag was among those selected for physical inspection.

During the inspection, your bag and its contents may have been searched for prohibited items. At the completion of the inspection, the contents were returned to your bag.

If the TSA security officer was unable to open your bag for inspection because it was locked, the officer may have been forced to break the locks on your bag. TSA sincerely regrets having to do this, however TSA is not liable for damage to your locks resulting from this necessary security precaution.
